## Eli Hawk Moves to Liberal.

Eli Hawk of near Neola was a social and business caller at this office Saturday, paying his annual dues to the old reliable and having his address changed to Liberal. Mr. Hawk, who is only 76 years young, has taken the advice once given by Horace Greeley to young men and "gone west to grow up with the country". He recently traded his home place to Fred Hoskinson for a half section northwest of Liberal, and moved out this week. Fred is also moving to the Hawk farm and will again make his home in this county. Mr. Hawk is well satisfied with his trade as he has a good farm well improved and is within a short distance of his sons, John and Charley. He has been a resident of Stafford county for twenty-seven years, and he homesteaded the place which he just disposed of. That neighborhood will not seem the same without him, but his friends all wish him success in the new home. —Stafford Courier.

## Warning to Railroad Men.

Look out for severe and even dangerous kidney and bladder trouble resulting from years of railroadings. Geo. E. Bell, of 639 Third St., Fort Wayne, Ind., was many years a conductor on the Nickel Plate. He says, "Twenty years of railroadings left my kidneys in terrible condition. There was a continual pain across my back and hips and my kidneys gave me much distress, and the action of my bladder was frequent and most painful. I got a supply of Foley Kidney Pills and the first bottle made a wonderful improvement, and four bottles cured me completely. Since being cured I have recommended Foley Kidney Pills to many of my railroad friends.

For sale by all druggists.

Here is one that is meritoriously going the rounds: "Anyone owing this paper is requested to call and pay at once. Anyone not owing us is requested to call and subscribe and begin owing us at once. Anyone we are now owing is requested to subscribe for this paper in advance to the full amount of the debt and pay us another year in advance, cash. Anyone who is not owing us and will not do so is requested to move to North Dakota and make room for one who will."

See Zell Taylor for apples. He has the finest line in town.

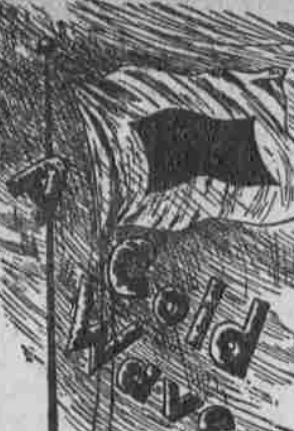

## February Weather

February 1911 was out of the ordinary in several respects although only two records were broken. The most remarkable difference from the 43 preceeding precipitation, which exceeded the average by 250 per cent, and was an even half an inch greater than that in 1892, the previous record. This rainfall not only breaks the February record but also exceeds that recorded for any previous January or March. The other, and closely related record, was the number of thunder storms, for while only two previous Februaries have had as many as two, this year there were three thunder storms, the temperature both maximum and minimum as well as the mean, was rather higher than usual, as was also the cloudiness, relative humidity and barometer.
